DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 18 and 26-28 are rejected under 35 U.S.C. 102(b) as being anticipated by McFarland (5048689).

McFarland disclose a disposable cutting board having a layer of corrugations (12,14,16,18), an absorbent layer (6,8,10), a backing layer (bottom), and score lines (abstract).

In regard to claim 27, there are four layers disclosed by McFarland and it is inherent that one could make the first layer just (12) and the second layer could be (14, 16, 18) which would require a greater force to penetrate.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3723

4. Claims 29 is rejected under 35 U.S.C. 103(a) as being unpatentable over McFarland (5048689).

- a. McFarland disclose is discussed above.
- b. In regard to claim 29, the modified McFarland discloses the claimed invention except for the micro-fibers material. It would have been obvious to one having ordinary skill in the art the time the invention was made to have used micro-fibers material ,since it has been held to within the general skill of a worker in the ad to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. Leshin, 125 USPQ 416.

Allowable Subject Matter

5. Claims 1-17, 20, and 22-26 allowed.
6. Claim 19 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

7. **Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.**

- c. Applicant has overcome art except on the aforementioned claims. New allowable subject matter was cited that could be place into the rejected claims.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
